

ROADS/PUBLIC SERVICE UPDATE:

Due to a safety issue when pulling or backing out of a hidden driveway on Houghton Rd., our Village Engineer along with the Summit County Engineers, have deemed it necessary to install 2 new stop signs on Houghton Rd. at the Roosevelt Dr. intersection.

Making this intersection a 3-way stop to prevent any accidents, our Village Safety director, Mayor Nehez, has directed the Village Service Department to install the recommended stop signs in hopes to reduce the risk of an accident.

Below is a simple sketch of this intersection:
